Business Discussion:

Revenues Bouncing Back: Overall utilisation level been limping back towards normalcy. Thus steady improvement is in-line with clients restarting business as India moves toward re-starting after long Covid related disruptions. On a pan India basis, there is improvement month over month though at different pace over locations.

New business addition remains robust, with 5 new Logos going live in Q1, which balanced some of the loss of legacy business and shuts downs due to COVID.

EBITDA& EBIDTA Margin: With increase in utilisation and continuing efforts to contain cost, Q1 ended with a EBIDTA Profit of Rs.5.91 crores. EBITDA Margin at 19.80% showing a improvement of 5% YoY basis and 8% QoQ basis. Some lease waivers continued into Q1 FY 22, providing cushion and enabling a saving of Rs.0.35 crore on leased charges for the three months (Apr-Jun,2021). This has been recognized as 'Other Income' in line with IND AS norms.

Cost Optimization: Efforts for sustainable cost optimization has led to decline in Employee cost as a percentage to revenues in Q1 at 65% vs 85% in Q1FY21 and 75% in Q4FY21, employee cost ratio has improved as revenues are normalised going forward. Overall cost optimization has helped us to mark higher EBIDTA in Q1FY22.

PAT & PAT Margin: Consolidated PAT has increased by 71% on YoY basis and PAT Margin has risen by 35% on YoY basis. Thus indicating that the company is running efficiently and is providing more value to shareholders.

MANAGEMENT COMMENTS:-

Commenting on the performance, the Chairman and Managing Director Mr. Akshay Chhabra said "We see green shoots emerging with a number of our clients completely re-starting business. We are relieved to have overcome one of the most challenging period without any defaults. Infact, we used this time to review our business strategy and put in place a number of measures to adapt and bounce back with additional vigour.

Despite the challenges, we are happy to see a month over month improvement in our billing and capacity utilization and believe we will achieve normal utilizations by year end. We are now well place to offer our complete bouquet of services on a PAN India basis to existing and emerging new e-commerce new age business.

The government is cognisant of the challenges faced by the IT/BPO industry and has made a number of policy changes to enable its smooth functioning. We have shown resilience in this difficult times and remain optimistic of the future. We assure you of our full commitment to improve profitability while maintaining a strong balancesheet. On behalf of the Board of Directors, I would like to take this opportunity to thank the entire team and all stakeholders for your continued support".
